

Cattle Finisher

PRODUCT DESCRIPTION

Designed to improve feed efficiency and increase rate of weight gain in cattle fed in confinement for slaughter.

FEEDING DIRECTIONS

Feed Cattle Finisher as the complete feed to finishing cattle in dry lot. Before starting cattle on Cattle Finisher, cattle should already be consuming 12% ANP Cattle Grower free choice. Gradually replace 12% ANP Cattle Grower with Cattle Finisher over a period of 3-5 days. Continue feeding Cattle Finisher free choice until market. Provide clean fresh water at all times.

WARNING:

A withdrawal period has not been established for this product in pre-ruminating cattle. Do not use in calves to be processed for veal.

Do not allow horses or other equine access to Lasalocid as ingestion may be fatal. Safety of Lasalocid for use in unapproved species has not been established.
