

Chicken Scratch

PRODUCT DESCRIPTION

A select variety of hi-quality grains have been specially cleaned and formulated to meet the needed energy and protein levels for the nutritional requirements of your adult flock. This feed contains only natural ingredients and is easily digestible.

FEEDING DIRECTIONS

Chicken Scratch may be fed any time after the chicks are 5 weeks of age. Start by introducing this feed in small amounts and may be gradually increased up to feeding as a free choice feed. Always monitor the condition and health of your birds. Provide fresh water away from other animals to prevent the spreading of diseases.

GUARANTEED ANALYSIS
