

PRODUCT DESCRIPTION:

The naturally Aromatic cedar shavings are made from logs shaved in our four shavers. The shavings are dried down to 12 % moisture content or less. The shavings undergo a two-step screening process that removes the oversized, fines and dust. The shavings are then blown over to a 4-stage baler. The shavings are 100% wood products and do not have any glues, paint, or recycled materials. Ideal for horse and livestock bedding.

Cox SHAVINGS Animal Bedding, Cedar Odor/Scent, Wood, 5 cu-ft Coverage Area, Horses, Livestock For Animal Type
