

DESCRIPTION:

Our Fine grade is translucent grey to white in color. The appearance is powdery. Yellow Prussiate of Soda (YPS) is added to the salt as an anti-caking agent. Fine Grade salt is most used as a feed additive for livestock. It can also be also used to melt ice and snow on roadways, parking lots, sidewalks, and anywhere else ice control is needed.

GUARANTEED ANALYSIS:

Sodium Chloride.....	95 to 97%
Calcium Chloride.....	0 to 1%
Magnesium.....	0 to 0.5%
Calcium Sulfate.....	0 to 2%
Magnesium Chloride.....	0 to 1%
Other Trace Minerals.....	0 to 1%

WEIGHT: 50 lbs
