

PLANTING INSTRUCTIONS:

Broadcast or drill into a firm seedbed. Be careful not to plant too deep or it may lead to stand failure. Cultipacking or dragging before or after laying seeds helps create an even firmer seedbed.

PLANTING DATES:

Lower Southern USA - Late fall

Upper Southern USA - Mid-late fall or early spring

Northern USA - Early fall or early spring (frost seeding works well)

SEEDING RATE:

Pure Stand - 5-8 lbs/ac

Mix with Grasses - 3-5 lbs/ac

Established Grass Pasture - 3/4 lbs/ac

PLANTING DEPTH:

1/8"-1/4"
